Track day program – Winton, Sunday, 23 March 2008

Motorsport competition

The day will be a full track day held at Winton Raceway, Benalla.

The maximum number of competitors will be capped at 60.

Each competitor will be placed into a 'run group' based on previous track experience. Each 'run group' will have a maximum of 16 drivers.

All 'first timers' driving at Winton will be offered a familiarisation session with an experienced driver.

The day will be divided into two events.

- Event 1 will be run on the short track.

Each session will be a timed event of 12 minutes. This will give most drivers six or seven timed laps per session.

We are planning to complete three sessions per competitor.

- Event 2 will be run on the long track.

Each session will be a timed event of 15 minutes. Competitors should complete four timed laps.

We are planning to have at least three sessions per competitor.

The Supplementary Regulations and entry form will be posted on the web site shortly.

Funkhana

For those not interested in the rough & tumble of the "serious" on-track competition, there will be a "funkhana" held in the Winton Raceway carpark.

This will include activities to test driver and co-driver skill, but with loads of laughs thrown in ... expect to see events like an egg & spoon race for cars, water balancing whilst navigating a challenging course, spare wheel relays and more.
