

Special Offer – “Upgrade your headlights now with Philips Blue Vision or Vision Plus Globes and see the difference.”

For a short time only we can offer at a heavily discounted price the complete range of Philips Vision Plus and Blue Vision globes to suit your car. We have globes to suit most vehicles on the road today and we are happy to provide for any cars that you may own.

The Vision Plus range are designed to improve your headlight output by around 50%. They are a good compromise between the standard 55W globe and the Blue Vision range.

The Philips Blue Vision range is a further improvement providing a crisp white light with a good forward spread; they are ADR approved and have an equivalent light output to a 110W globe with the heat output of a 55W globe. Unlike higher wattage globes they will not damage your cars wiring or headlight lens.

Cost for the Vision Plus range: H4 & H1 - \$32.50 (normal RRP\$39.99)

Costs for the Blue Vision range: H4 & H1 - \$49.00 (normal RRP\$59.99), HB3 & HB4 - \$55.00 (normal RRP\$66.99)

Postage and handling is \$5.00 for the Melbourne metropolitan area, \$10.00 for interstate deliveries or you may collect goods by arrangement.

Fitting Guide for the Mazda MX5
